The Michigan Arts Education Instruction and Assessment project (MAEIA) supports arts educators and administrators with a comprehensive set of resources on assessment in the arts and a history of creating a dynamic community. The MAEIA tools and resources make it easier to tell the story of your arts classrooms and programs to administrators, parents, colleagues, and students while collecting the data your district expects. Join us to feel empowered and informed in how to advance creativity in education and demonstrate your effectiveness.

Target audience: Fine Arts teachers, curriculum leaders, principals and community arts program leaders.
